BOC
A Linde company

Sleep and respiratory medical devices.

Experience the difference with BOC sleep therapy

BOC: Living healthcare

A local partner in leading sleep innovations

Our sleepcare team are here to provide you with a leading selection of independent sleep solutions.

Professional training

Comprehensive training is provided by our sleep specialised channel managers to ensure the best outcomes for our partners and their prospective patients. Training includes sleep diagnostics, CPAP therapy treatment and ongoing support and after care.

Optimum cost of ownership

Take advantage of our global network, which allows us to offer world-leading products and negotiate better pricing, enabling us to provide cost effective solutions.

Ethical responsibility

We source our sleep and respiratory devices from carefully selected manufacturers that share our commitment to ethical practice, environmental efficiency, human rights and fair treatment of employees.

Reliable service

Rely on our experienced local customer service team to provide all sales, training, maintenance and servicing support.

APAP (Automatic positive airway pressure) device:

Delivers an automatic pressure self-adjusting to patient requirements throughout therapy

CPAP (Continuous positive airway pressure) device:

Delivers a fixed pressure throughout therapy

ResMed AirSense™ series

ResMed's sleep therapy devices feature a selection of cutting-edge technologies, each designed to help make your treatment experience as easy and comfortable as possible. Featuring ResMed's latest technology, the AirSense™ 11 series offers you a new beginning in great sleep.

AirSense™ 11 AutoSet™

ResMed AirSense™ 11 AutoSet™ with AutoSet for Her therapy mode included is ResMed's latest premium auto-adjusting pressure device with an integrated HumidAir™ humidifier, cellular technology and advanced event detection. Combining enhanced digital health technology with proven therapy modes, AirSense™ 11 is designed to make starting and staying on CPAP therapy easy. AirSense™ 11 features an easy-to-use touchscreen and enhanced digital features that help deliver an experience that's tailored to individual needs.

AirSense™ 11 Elite

ResMed AirSense™ 11 Elite is ResMed's latest premium fixed-pressure device with an integrated HumidAir humidifier and cellular technology. It features the easy-to-use touchscreen and integrated HumidAir™ humidifier.

Features and benefits

- AutoSet™ and Elite models
- Touchscreen
- Integrated Humidifier
- Bluetooth® connectivity for myAir™ pairing
- Built-in cellular technology depending on network availability
- Personal Therapy Assistant and Care Check-In
- AutoRamp™ delivers a low airflow pressure to help you fall asleep
- The Expiratory Pressure Relief (EPR™) function maintains a regular airflow pressure while you inhale and then reduces this pressure to make it easier whilst exhaling

Nasal mask

Great for patients who are new to sleep therapy, nasal masks cradle the nose or fit comfortably around the nose and can take a wide range of pressures without compromising seal or comfort.

Ordering information

Product	Features and benefits	Description	Part number
ResMed AirFit™ N30 Introducing ResMed AirFit™ N30, the first nasal cradle mask in the market with front-end tubing and lightest option yet[1]. It's easy to use and well-balanced, with unique features designed to maximise comfort and performance while minimising facial contact.	→ QuickFit elastic adjustable headgear with split strap aims to provide stability and adjustability with minimal facial contact → Nasal cradle cushion rests discreetly under-the-nose → QuietAir™ vent technology is designed to break up exhaled air, minimising sleep disruptions	AirFit™ N30 mask starter pack	**64206**
ResMed AirFit™ N30i The AirFit™ N30i allows your patients the freedom to sleep in many positions and be close to their bed partner.	→ Field of vision allowing patients to read or watch TV → SpringFit frame → Top-of-the-head design	AirFit™ N30i starter pack: → Standard → Small	 **63825** **63826**
ResMed AirFit™ N20 The AirFit™ N20 gives you a clear line of sight and accommodates your movements thanks to the InfinitySeal™ silicone cushion.	→ InfinitySeal™ silicone cushion made to seal robustly on a wide range of facial shapes and sizes → Soft cushion and headgear → Full field of vision	AirFit™ N20 for Her: → Small AirFit™ N20: → Medium → Large	 **63520** **63521** **63522**
ResMed AirFit™ N20 Classic Every patient's face is different, but the AirFit™ N20 Classic nasal masks make it quick and easy to fit a broad range of patients.	→ InfinitySeal™ silicone cushion → Secure adjustable headgear with soft cushion → Cushion compatible with ResMed AirFit™ N20	AirFit™ N20 Classic: → Small → Medium → Large	 **63723** **63724** **63725**

1 As of October 2019. Based on available user guide data. The total weight of AirFit™ N30, which includes the headgear and excludes the packaging, is 45g.

Lumin® CPAP sanitiser

Disinfect your CPAP equipment. Your healthy choice in CPAP and accessory sanitiser with a simple one-touch operation.

Lumin operates with a unique specialised high power UV-C light source, that is targeted at the narrow range of light that is proven to kill harmful bacteria, viruses, mould and fungus (254nm). This is the same type of light source that is used in hospital operating rooms and sterile clean rooms.

Features and benefits

- Ambient UV light
- One touch five minute sanitisation
- No harmful chemicals or gases
- Easy access tray
- Cost effective
- The safe UVC light process is suitable for items such as:
  - CPAP equipment
  - Tooth brush
  - Hearing aids
  - Mobile phones
  - Children's pacifiers
  - Sport mouth guards
  - Shaving devices
  - Toys

FLAEM® LightNeb™ portable nebuliser system

LightNeb™ is a battery operated, portable and virtually silent nebuliser. Using clinically proven advanced vibrating mesh technology LightNeb™ is capable of effectively nebulise most commonly prescribed medication.

The on-demand function nebulises the medication only on demand so more medication is delivered and less wasted.

Features and benefits

- MMAD[1]: 4 µm
- Breathable Fraction[2]: 65%
- Power: 2X AA alkaline/rechargeable batteries
- Weight: 115 g
- Made in Italy
- **ARTG identifier:** 319983

FLAEM® accessories and consumables

The RF7+ is a dual-speed nebuliser with an innovative speed selector that allows patients to easily choose between faster therapy or maximum medication delivery.

Flaem RF6+ high efficiency nebuliser is equipped with an anti-dispersion filter to minimise the dispersion of the exhaled medication.

Flaem nebulisers are reusable and can be disinfected in electrolytic oxidising chlorine solutions or autoclaved.

2 Fine Particle Fraction smaller than 5 µm, In vitro testing performed by TÜV Rheinland Italia S.r.l. in collaboration with the University of Parma and in compliance with the EN 13544-1: 2007 + A1 European Standard for aerosol therapy devices Standard.

3 Data shown in accordance with Flaem® Nuova internal procedures tested for 2.5ml saline solution 0.9%. Values may vary depending on the patients' respiratory capacity.

Suresense finger pulse oximeter

Designed for non-invasive spot check of SpO_2 and pulse rate, this durable finger pulse oximeter is suitable for use in hospitals, day surgeries, doctors' rooms and other medical facilities.

Features and benefits

- Displays SpO_2, pulse rate, perfusion index and plethysmograph
- Manually change the interface direction
- Adjustable low SpO_2 alarm
- Accuracy: 2%
- Battery indicator
- **ARTG identifier:** 340050

Stationary oxygen concentrators

Philips® Respironics EverFlo™ concentrator

EverFlo™ from Respironics is a unique stationary concentrator that delivers what therapists want and patients deserve.

EverFlo™ is one of the lightest and most compact stationary concentrators in Australia capable of producing up to 5 L/min of high purity oxygen. This device is designed to deliver exceptional performance with low maintenance costs making it an economic source of medical oxygen for your facility.

Features and benefits

- Flow rate: 0.5–5 L/min
- Noise level: 45 dBA
- Oxygen concentration: 93% +/- 3
- Dimensions: 58.4 X 38.1 X 24.1 cm
- Weight: 14 kg
- **ARTG identifier:** 133796

Three-year warranty

PHILIPS
RESPIRONICS

EverFlo™ 5 L/min oxygen concentrator

Caire® VisionAire™ 5

With a unique design that eliminates preventative maintenance schedules, get the most out of your stationary concentrator without having to worry about replacement filter costs.

Combining low failure rates with no preventative maintenance schedule creates a high-performing stationary with a low total cost of ownership.

Features and benefits

- Flow rate: 0.5–5 L/min
- Noise level: 45 dBA
- Oxygen concentration: 90% +5.5/-3
- Dimensions: 52.8 X 35.8 X 29.2 cm
- Weight: 13.6 kg
- **ARTG identifier:** 205089

Three-year warranty

VisionAire™ oxygen concentrator 5 L/min	**AS098-17**

CAIRE®

VisionAire™ 5 L/min oxygen concentrator

Caire® NewLife™ Intensity™ 10 concentrator

The NewLife™ Intensity™ 10 is ideal for patient care facilities where higher oxygen flow rates are required.

This stationary oxygen concentrator combines high pressure (20 psi outlet pressure) with high flow rates of up to 10 L/min making it suitable for demanding applications. High outlet pressure enables this device to drive nebulisers; while the dual flow model allows oxygen therapy for two patients simultaneously.

Features and benefits

- Flow rate: 2–10 L/min*
- Outlet pressure: 20 psig (138 kPa)
- Noise level: 55 dBA
- Oxygen concentration:
  2–9 L/min: 92%+3.5/-3
- 10 L/min: 90%+5.5/-3
- Dimensions: 69.9 X 41.9 X 36.8 cm
- Weight: 26.3 kg
- **ARTG identifier:** 205089

Portable oxygen concentrators

BOC's portable oxygen concentrators come in continuous or pulse dose models.

Pulse dose models release a bolus of oxygen when they sense inhalation and have a range of settings to control the size of the bolus (volume of oxygen delivered per breath). These setting numbers are not equal to continuous flow rates, e.g. setting 2 does not mean 2 L/min.

It is important that patients are titrated with pulse dose devices to determine what setting to use the device at.

If you need to hire a specific model to take to your doctor for titration before purchase, talk to our customer service team.

FLAEM® Aspira™ Go 30 portable suction device >

The FLAEM® Aspira™ is a compact battery-operated device for use as a portable or back up source of medical suction.[1]

The FLAEM® Aspira™ includes disposable canisters, packs of connection tubing and hydrophobic bacteria filters are available for easy maintenance and sanitisation.

It comes with a battery, AC adapter, power cord, car charger, and a set of consumables including a 1 L canister, a pack of connection tubes, bacterial filter, and a disposable manual flow control.

Features and benefits

- Lightweight – only 2.5 kg
- High vacuum high flow suction
- Battery run time: 45 min app.
- Operation: 30 min on/30 min off
- Adjustable suction range: -75 to -637 mmHg
- Pre-packed disposable tubing and filters
- Compatible with VacSax disposable apparatus[3]
- Made in Italy
- **ARTG identifier:** 308021

2 Tested and verified by TÜV Rheinland in accordance with the EN 60601-1: 3006 + A1 and EN ISO 10079-1: 2015 on behalf of Flaem Nuova S.p.A for Aspira™ Go suction device P1611EM-30.

3 The product CE mark and performance validation tests by TÜV Rheinland obtained using the original Flaem® canister.

Suction therapy consumables

BOC offers a range of accessories and consumables for comfortable and efficient suction therapy.

VacSax disposable apparatus

All external surfaces of the liner and canister have antimicrobial properties to reduce the growth of harmful bacteria.

All VacSax Bacticlear® liners, with the exception of cascade versions, have a hydrophobic bacterial shut off filter for complete overflow protection.

Flat base and semi-rigid walls enables the liner to stand up by itself, even when full, aiding busy staff. While end of use stoppers permanently seal the ports after use and integral handles provide easy and safe handling of bio-waste.
