

RETRACTABLE WELD SCREEN

Welding environments demand proper protection that does not sacrifice space. **ROLLTect™** Retractable Weld Screens create stable work zones that configure easily, adapt to changing floor plans, and roll away for compact storage. Modular and customizable, it keeps equipment traffic moving, all without slowing production.

RWS ORANGE

Intense UV and IR protection.
Reduces glare from welding arc.

RWS YELLOW

For low to moderate intensity
welding operations

RWS BLUE

Strong UV and IR protection for
high wavelength applications.

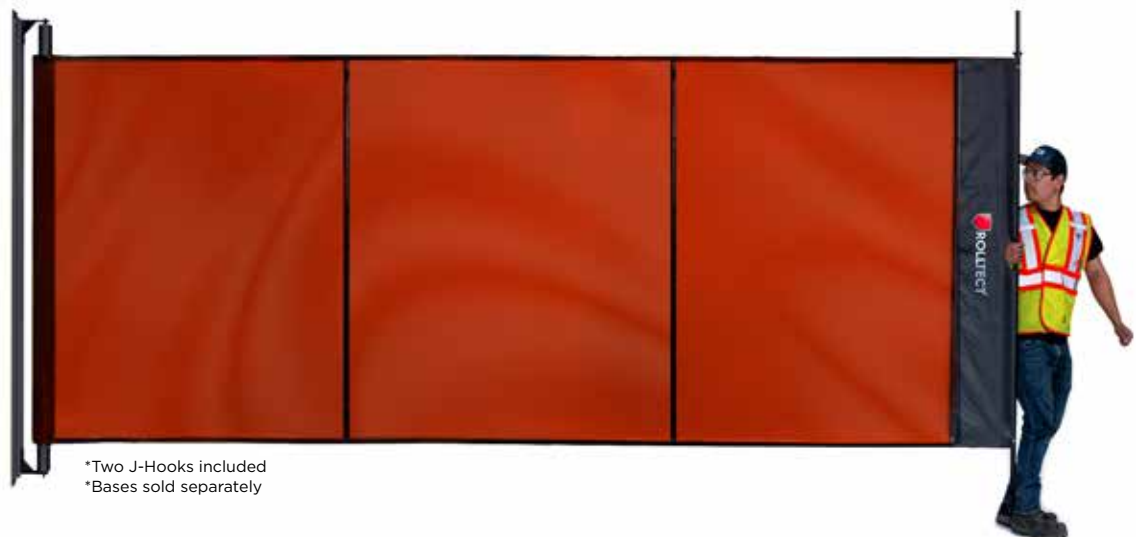

RWS GREEN

Highest UV and IR protection
with clarity of the welding arc.

Safety solutions built around you

- 1 Efficient Mobility
- 2 High-Quality Materials
- 3 Space-Saving
- 4 Adaptability

ROLLTECT™

*Two J-Hooks included
*Bases sold separately
