

FRAMED WELD SCREENS

Safety Starts with a Shield

6' X 6' YELLOW FRAMED SCREEN

Moderate UV and IR protection with optimal transparency. Made for low to moderate intensity tasks such as grinding, deburring, and light welding

6' X 6' ORANGE FRAMED SCREEN

Shields from UV, IR, sparks, and glare in welding, cutting, and brazing. Delivers intense protection that is ideal for TIG, MIG, and stick welding.

6' X 6' BLUE FRAMED SCREEN

Designed for torch cutting, gas welding, and MIG welding. They provide strong UV and IR protection for high-wavelength applications

6' X 6' GREEN FRAMED SCREEN

For heavy-duty welding, electric arc welding, and plasma cutting with the highest UV and IR protection.
