5. Supplier FAQ (Questions & Answers) for Ariba SLP and Supplier Registration

Question	Answer
Why do suppliers need to register?	In order to become a new supplier for Linde or to update data, all designated and selected suppliers must first register and fill out the questionnaire through the Ariba SLP – Supplier Registration
What does being registered mean?	Suppliers are required, in order to submit the registration questionnaire, to obtain a username and password (SAP ARIBA network account) to access the system, you may also use your existing username and password
I already have an ANID (Ariba Network ID), do I need a second one for the Supplier Registration?	If you already have an ANID, then you do not need a second ID, simply log in with your user and password. If your current ANID is not connected with Ariba SLP, you will require a second one for the Ariba SLP/Supplier Registration
Is this registration for the company or a person?	Supplier registration is for the company. However, during the registration, the authorized/designated user to complete and submit supplier registration questionnaire will be required to sign up to SAP ARIBA in order to gain access to the company's information.
Where to find general information on the Ariba Network for Suppliers	'Supplier Basics' can be found on the Ariba Learning Center: <a href="https://www.ariba.com/support">https://www.ariba.com/support</a>
If a supplier is already approved by another company on SAP ARIBA, does it require to be re-registered by SAP?	ARIBA SLP does not share supplier's registration information between different companies. Suppliers that were previously registered on ARIBA SLP and are not registered with Linde must separately submit the Linde supplier registration questionnaire
How will suppliers get notifications?	Email notifications will be sent to the supplier contact person. The primary contact person will receive all status updates and notifications. Suppliers are able to maintain their primary contact person and other designated users roles via SAP ARIBA network. SAPARIBA has tutorials specific for maintaining sap user roles under <a href="http://www.ariba.com">www.ariba.com</a>
Invite send to the wrong supplier contact	Supplier shall not forward the invitation but rather get in touch with the Linde contact person mentioned on the invitation and ask for sending the invitation to another user
When I click on the registration link, I land on the login screen. I cannot see the registration screen	A previous user has accessed the link (shared inboxes). If the supplier profile was not accessed yet, Linde can reactivate the link by resending the invitation.  Supplier shall also deactivate pop-up / ad blockers (see Ariba note: <a href="https://support.ariba.com/Item/view/179632">https://support.ariba.com/Item/view/179632</a> )
I tried to sign up but after completing the form I get the following error: There has been an issue updating the Sourcing supplier	Please try to login via <a href="http://supplier.ariba.com">supplier.ariba.com</a> with your user and password to access the questionnaire
The time for answering the questionnaire is over, the status is now closed. Can I extend timeline?	The initial invitation will expire 30 days after being received. Linde can upon request extend the questionnaire time to suppliers that have gathered all requirements and are ready to submit their registration questionnaire for evaluation. In order to get a time extension after the 30 days, please email Linde person who sent the original invitation to your company to request a time extension

## 5. Leverancier FAQ (Vragen & Antwoorden) voor Ariba SLP leveranciersregistratie

Vraag	Antwoord
Waarom moeten leveranciers zich registreren?	Om een nieuwe leverancier voor Linde te worden of om gegevens bij te werken, moeten alle aangewezen en geselecteerde leveranciers zich eerst registreren en de vragenlijst invullen via de Ariba SLP - Leveranciersregistratie
Wat betekent geregistreerd zijn?	Leveranciers moeten, om de registratievragenlijst in te dienen, een gebruikersnaam en wachtwoord (SAP ARIBA netwerkaccount) verkrijgen om toegang te krijgen tot het systeem; u kunt ook uw bestaande gebruikersnaam en wachtwoord gebruiken indien van toepassing op SAP
Ik heb al een ANID (Ariba Network ID), heb ik een tweede nodig voor de leveranciersregistratie?	Als u al een ANID heeft, dan heeft u geen tweede ID nodig, u kunt dan gewoon inloggen met uw gebruiker en wachtwoord. Als uw huidige ANID niet verbonden is met Ariba SLP, dan heeft u een tweede account nodig voor de Ariba SLP/Leveranciersregistratie
Is deze registratie voor het bedrijf of voor een persoon?	De leveranciersregistratie is voor het bedrijf. Tijdens de registratie zal de gemachtigde/aangewezen gebruiker om de vragenlijst voor de leveranciersregistratie in te vullen en in te dienen zich moeten aanmelden bij SAP ARIBA om toegang te krijgen tot de informatie van het bedrijf.
Waar vindt u algemene informatie over het Ariba Network voor Leveranciers	Supplier Basics' is te vinden op het Ariba Learning Center: <a href="https://www.ariba.com/support">https://www.ariba.com/support</a>
Als een leverancier al door een ander bedrijf in SAP ARIBA is goedgekeurd, moet hij dan opnieuw door SAP worden geregistreerd?	ARIBA SLP deelt de registratiegegevens van leveranciers niet tussen verschillende bedrijven. Leveranciers die eerder bij ARIBA SLP waren geregistreerd en niet bij Linde zijn geregistreerd, moeten afzonderlijk de vragenlijst voor de registratie van leveranciers van Linde indienen
Hoe worden de leveranciers op de hoogte gebracht?	E-mailmeldingen worden gestuurd naar de contactpersoon bij de leverancier. De primaire contactpersoon ontvangt alle statusupdates en -meldingen. Leveranciers kunnen hun primaire contactpersoon en andere aangewezen gebruikersrollen onderhouden via het SAP ARIBA-netwerk. SAP ARIBA heeft specifieke handleidingen voor het onderhouden van sap gebruikersrollen onder <a href="http://www.ariba.com">www.ariba.com</a>
Uitnodiging naar de verkeerde contactpersoon gestuurd	De leverancier mag de uitnodiging niet doorsturen, maar moet contact opnemen met de contactpersoon die op de uitnodiging staat vermeld en vragen om toezending van de uitnodiging aan een andere gebruiker
Als ik op de registratielink klik, kom ik op het inlogscherf terecht. Ik kan het registratie scherm niet zien	Een vorige gebruiker heeft toegang gehad tot de link (gedeelde inboxen). Als het leveranciersprofiel nog niet is geopend, kan Linde de koppeling opnieuw activeren door de uitnodiging opnieuw te verzenden. Leverancier moet ook pop-up / ad blockers deactiveren (zie Ariba note: <a href="https://support.ariba.com/Item/view/179632">https://support.ariba.com/Item/view/179632</a> )
Ik heb geprobeerd me in te schrijven, maar na het invullen van het formulier krijg ik de volgende foutmelding: Er is een probleem met het updaten van de leverancier	Probeer in te loggen via <a href="http://supplier.ariba.com">supplier.ariba.com</a> met uw gebruikersnaam en wachtwoord om toegang te krijgen tot de vragenlijst
De tijd voor het beantwoorden van de vragenlijst is voorbij, de status is nu gesloten. Kan ik de tijdlijn verlengen?	De eerste uitnodiging verstrijkt 30 dagen na ontvangst. Linde kan op verzoek de vragenlijsttermijn verlengen voor leveranciers die aan alle vereisten hebben voldaan en klaar zijn om hun registratievragenlijst ter beoordeling in te dienen. Om na de 30 dagen een verlenging te krijgen, stuurt u een e-mail naar de persoon van Linde die de oorspronkelijke uitnodiging naar uw bedrijf heeft gestuurd om een verlenging aan te vragen

## 5 FAQ (Questions et réponses) pour Ariba SLP et l'inscription des fournisseurs

Question	Réponse
Pourquoi les fournisseurs doivent-ils s'inscrire ?	Pour devenir un nouveau fournisseur de Linde ou pour mettre à jour des données, tous les fournisseurs désignés et sélectionnés doivent d'abord s'inscrire et remplir le questionnaire via le site Ariba SLP - Inscription des fournisseurs
Que signifie être enregistré ?	Les fournisseurs sont tenus, pour soumettre le questionnaire d'inscription, d'obtenir un nom d'utilisateur et un mot de passe (compte de réseau SAP ARIBA) pour accéder au système, vous pouvez également utiliser votre nom d'utilisateur et mot de passe existants,
J'ai déjà un ANID (Ariba Network ID), ai-je besoin d'un second pour l'inscription du fournisseur ?	Si vous disposez déjà d'un ANID, vous n'avez pas besoin d'un deuxième identifiant, il vous suffit de vous connecter avec votre utilisateur et votre mot de passe. Si votre ANID actuel n'est pas connecté à Ariba SLP, vous aurez besoin d'un deuxième ANID. un pour le SLP Ariba/Enregistrement du fournisseur
S'agit-il d'un enregistrement pour l'entreprise ou pour une personne ?	L'enregistrement des fournisseurs est réservé à l'entreprise. Cependant, au cours de l'enregistrement, l'utilisateur autorisé/désigné pour remplir et soumettre le questionnaire d'enregistrement du fournisseur devra s'inscrire à SAP ARIBA afin d'avoir accès aux informations de l'entreprise.
Où trouver des informations générales sur l'Ariba Network pour les fournisseurs ?	L'article "Supplier Basics" est disponible sur le centre d'apprentissage Ariba : <a href="https://www.ariba.com/support">https://www.ariba.com/support</a> .
Si un fournisseur est déjà approuvé par une autre entreprise sur SAP ARIBA, doit-il être réenregistré par SAP ?	ARIBA SLP ne partage pas les informations d'enregistrement des fournisseurs entre différentes sociétés. Les fournisseurs qui étaient précédemment enregistrés sur ARIBA SLP et qui ne sont pas enregistrés auprès de Linde doivent soumettre séparément le questionnaire d'enregistrement des fournisseurs de Linde.
Comment les fournisseurs recevront-ils les notifications ?	Les notifications par courriel seront envoyées à la personne de contact du fournisseur. La personne de contact principale recevra toutes les mises à jour de statut et les notifications. Les fournisseurs peuvent gérer les rôles de leur personne de contact principale et des autres utilisateurs désignés via le réseau SAP ARIBA. SAP ARIBA propose des didacticiels spécifiques pour la gestion des rôles d'utilisateur SAP sur <a href="http://www.ariba.com">www.ariba.com</a> .
Envoi d'une invitation au mauvais contact fournisseur	Le fournisseur ne doit pas transmettre l'invitation mais plutôt prendre contact avec le contact GPO mentionné sur l'invitation et demander l'envoi de l'invitation. invitation à un autre utilisateur
Lorsque je clique sur le lien d'enregistrement, j'atterris sur l'écran de connexion. Je ne peux pas voir l'écran d'enregistrement	Un utilisateur précédent a accédé au lien (boîtes de réception partagées). Si le profil du fournisseur n'a pas encore été consulté, Linde peut réactiver le lien en renvoyant l'invitation. Le fournisseur doit également désactiver les bloqueurs de pop-ups et de publicités (voir la note Ariba : <a href="https://support.ariba.com/Item/view/179632">https://support.ariba.com/Item/view/179632</a> ).
J'ai essayé de m'inscrire mais après avoir rempli le formulaire, je reçois l'erreur suivante : Il y a eu un problème de mise à jour du fournisseur d'approvisionnement.	Veuillez essayer de vous connecter via <a href="http://supplier.ariba.com">supplier.ariba.com</a> avec votre utilisateur et votre mot de passe pour accéder au questionnaire.
Le délai pour répondre au questionnaire est terminé, le statut est maintenant clos. Puis-je prolonger le délai ?	L'invitation initiale expirera 30 jours après sa réception. Linde peut, sur demande, prolonger la durée du questionnaire pour les fournisseurs qui ont rassemblé toutes les exigences et sont prêts à soumettre leur questionnaire d'inscription pour évaluation. Afin d'obtenir une prolongation du délai après les 30 jours, veuillez envoyer un courriel à la personne de Linde qui a envoyé l'invitation initiale à votre entreprise pour demander une prolongation du délai.

## 5. Lieferanten-FAQ (Fragen & Antworten) für Ariba SLP und Lieferantenregistrierung

Frage	Antwort
Warum müssen sich die Anbieter registrieren?	Um ein neuer Lieferant für Linde zu werden oder Daten zu aktualisieren, müssen sich alle designierten und ausgewählten Lieferanten zunächst registrieren und den Fragebogen über die Ariba SLP - Supplier Registration ausfüllen.
Was bedeutet es, registriert zu sein?	Um den Registrierungsfragebogen auszufüllen, müssen die Lieferanten einen Benutzernamen und ein Kennwort (SAP ARIBA-Netzwerkkonto) für den Zugang zum System erhalten; Sie können auch Ihr bestehender Benutzername und Passwort, falls für SAP zutreffend
Ich habe bereits eine ANID (Ariba Network ID). Brauche ich eine zweite für die Lieferantenregistrierung?	Wenn Sie bereits eine ANID haben, benötigen Sie keine zweite ID, sondern melden sich einfach mit Ihrem Benutzer und Passwort an. Wenn Ihre aktuelle ANID nicht mit Ariba SLP verbunden ist, benötigen Sie eine zweite eine für die Ariba SLP/Lieferantenregistrierung
Handelt es sich um eine Anmeldung für ein Unternehmen oder eine Person?	Die Lieferantenregistrierung gilt für das Unternehmen. Während der Registrierung muss sich der bevollmächtigte/bestimmte Benutzer, der den Fragebogen zur Lieferantenregistrierung ausfüllt und einreicht, jedoch bei SAP ARIBA anmelden, um Zugang zu den Informationen des Unternehmens zu erhalten.
Wo finde ich allgemeine Informationen über das Ariba Network for Suppliers	<u>Die "Supplier Basics" sind im Ariba Learning Center zu finden: <a href="https://www.ariba.com/support">https://www.ariba.com/support</a></u>
Wenn ein Lieferant bereits von einem anderen Unternehmen in SAP ARIBA zugelassen ist, muss er dann von SAP neu registriert werden?	Die ARIBA SLP gibt die Registrierungsdaten der Lieferanten nicht an andere Unternehmen weiter. Lieferanten, die zuvor bei ARIBA SLP registriert waren und nicht bei Linde registriert sind, müssen den Fragebogen zur Lieferantenregistrierung von Linde separat ausfüllen
Wie werden die Lieferanten benachrichtigt?	E-Mail-Benachrichtigungen werden an die Kontaktperson des Lieferanten gesendet. Der Hauptansprechpartner erhält alle Statusaktualisierungen und Benachrichtigungen. Lieferanten können die Rollen ihres Hauptansprechpartners und anderer benannter Benutzer über das SAP ARIBA-Netzwerk pflegen. SAP ARIBA bietet spezielle Anleitungen für die Pflege von SAP-Benutzerrollen unter <a href="http://www.ariba.com">www.ariba.com</a> .
Einladung an den falschen Lieferantenkontakt gesendet	Der Lieferant darf die Einladung nicht weiterleiten, sondern muss sich mit dem auf der Einladung genannten GPO-Kontakt in Verbindung setzen und um die Zusendung der Unterlagen bitten. Einladung an einen anderen Benutzer
Wenn ich auf den Registrierungslink klicke, lande ich auf dem Anmeldebildschirm. Ich kann den Registrierungs bildschirm nicht sehen	Ein früherer Benutzer hat auf den Link zugegriffen (gemeinsame Posteingänge). Wurde auf das Lieferantenprofil noch nicht zugegriffen, kann die Linde AG den Link durch erneutes Versenden der Einladung reaktivieren.  Der Lieferant muss auch Pop-up-/Werbeblocker deaktivieren (siehe Ariba-Hinweis: <a href="https://support.ariba.com/Item/view/179632">https://support.ariba.com/Item/view/179632</a> )
Ich habe versucht, mich anzumelden, aber nachdem ich das Formular ausgefüllt habe, erhalte ich folgende Fehlermeldung: Es gab ein Problem bei der Aktualisierung des Sourcing-Lieferanten	Bitte versuchen Sie, sich über <a href="http://supplier.ariba.com">supplier.ariba.com</a> mit Ihrem Benutzer und Passwort anzumelden, um auf den Fragebogen zuzugreifen.
Die Zeit für die Beantwortung des Fragebogens ist abgelaufen, der Status ist jetzt geschlossen. Kann ich die Zeitspanne verlängern?	Die ursprüngliche Einladung läuft 30 Tage nach Erhalt ab. Linde kann die Frist für den Fragebogen auf Anfrage für Lieferanten verlängern, die alle Anforderungen gesammelt haben und bereit sind, ihren Registrierungsfragebogen zur Bewertung einzureichen. Um eine Fristverlängerung nach Ablauf der 30 Tage zu erhalten, wenden Sie sich bitte per E-Mail an die Person bei Linde, die die ursprüngliche Einladung an Ihr Unternehmen geschickt hat.

### 3. Supplier FAQ (Domande e risposte) per Ariba SLP e la registrazione dei fornitori

Domanda	Risposta
Perché i fornitori devono registrarsi?	Per diventare un nuovo fornitore di Linde o per aggiornare i dati, tutti i fornitori designati e selezionati devono prima registrarsi e compilare il questionario attraverso Ariba SLP - Supplier Registration.
Cosa significa essere registrati?	Ai fornitori è richiesto, al fine di inviare il questionario di registrazione, di ottenere un nome utente e una password (account della rete SAP ARIBA) per accedere al sistema; è possibile utilizzare anche il proprio nome utente e password esistenti
Ho già un ANID (Ariba Network ID), ne ho bisogno di un secondo per la registrazione del fornitore?	Se si dispone già di un ANID, non è necessario un secondo ID; è sufficiente accedere con il proprio utente e la propria password. Se l'ANID attuale non è collegato ad Ariba SLP, è necessario un secondo ID. uno per la registrazione Ariba SLP/Fornitore
La registrazione riguarda l'azienda o una persona?	La registrazione del fornitore è riservata all'azienda. Tuttavia, durante la registrazione, l'utente autorizzato/designato a compilare e inviare il questionario di registrazione del fornitore dovrà iscriversi a SAP ARIBA per poter accedere alle informazioni dell'azienda.
Dove trovare informazioni generali sulla rete Ariba per i fornitori	<u>Le "Nozioni di base sui fornitori" sono disponibili nel Centro di apprendimento Ariba: <a href="https://www.ariba.com/support">https://www.ariba.com/support</a>.</u>
Se un fornitore è già approvato da un'altra azienda su SAP ARIBA, deve essere registrato nuovamente da SAP?	ARIBA SLP non condivide le informazioni di registrazione dei fornitori tra diverse aziende. I fornitori che erano precedentemente registrati su ARIBA SLP e non sono registrati presso Linde devono inviare separatamente il questionario di registrazione dei fornitori di Linde.
Come riceveranno le notifiche i fornitori?	Le notifiche via e-mail saranno inviate al referente del fornitore. Il referente principale riceverà tutti gli aggiornamenti di stato e le notifiche. I fornitori possono gestire i ruoli del referente principale e degli altri utenti designati tramite la rete SAP ARIBA. SAP ARIBA offre tutorial specifici per il mantenimento dei ruoli utente di SAP in <a href="http://www.ariba.com">www.ariba.com</a> .
Invito inviato al contatto fornitore sbagliato	Il fornitore non deve inoltrare l'invito, ma contattare il contatto dell'OPG indicato sull'invito e chiedere l'invio dell'invito. invito a un altro utente
Quando faccio clic sul link di registrazione, mi ritrovo nella schermata di accesso. Non riesco a visualizzare la schermata di registrazione	Un utente precedente ha avuto accesso al link (caselle di posta condivise). Se il profilo del fornitore non è ancora stato consultato, Linde può riattivare il link inviando nuovamente l'invito.  Il fornitore dovrà inoltre disattivare i pop-up / ad blocker (vedi nota Ariba: <a href="https://support.ariba.com/Item/view/179632">https://support.ariba.com/Item/view/179632</a> ).
Ho provato ad iscrivermi ma dopo aver completato il modulo ricevo il seguente errore: Si è verificato un problema nell'aggiornamento del fornitore di Sourcing.	Per accedere al questionario, provare a effettuare il login tramite il sito <a href="http://supplier.ariba.com">supplier.ariba.com</a> con il proprio utente e la propria password.
Il tempo per rispondere al questionario è scaduto, lo stato è chiuso. Posso prolungare i tempi?	L'invito iniziale scadrà 30 giorni dopo la ricezione. Linde può, su richiesta, estendere il tempo di compilazione del questionario ai fornitori che hanno raccolto tutti i requisiti e sono pronti a presentare il questionario di registrazione per la valutazione. Per ottenere una proroga dopo i 30 giorni, si prega di inviare un'e-mail alla persona di Linde che ha inviato l'invito originale alla vostra azienda per richiedere una proroga.

## 5. Perguntas e respostas (FAQ de fornecedores) para Ariba SLP e Registo de Fornecedores

Pergunta	Resposta
Porque é que os fornecedores precisam de se registar?	Para se tornar um novo fornecedor da Linde ou para actualizar dados, todos os fornecedores designados e seleccionados devem primeiro registar-se e preencher o questionário através do Ariba SLP - Supplier Registration
O que significa estar registado?	Os fornecedores devem, para submeter o questionário de registo, e obter um nome de utilizador e uma palavra-chave (conta de rede SAP ARIBA) para aceder ao sistema, pode também utilizar o seu nome de utilizador e palavra-passe existentes, se aplicável ao SAP
Já tenho um ANID (Ariba Network ID), preciso de um segundo para o Registo de Fornecedores?	Se já tem um ANID, então não precisa de um segundo ID, basta iniciar sessão com o seu utilizador e palavra-passe. Se o seu ANID actual não estiver ligado ao Ariba SLP, necessitará de um segundo registo Ariba SLP/Supplier
Este registo é para a empresa ou para uma pessoa?	O registo de fornecedor é para a empresa. No entanto, durante o registo, o utilizador autorizado/designado a preencher e submeter o questionário de registo de fornecedor será obrigado a inscrever-se no SAP ARIBA para ter acesso à informação da empresa.
Onde encontrar informações gerais sobre a Rede Ariba para Fornecedores	O "Supplier Basics" pode ser encontrado no Ariba Learning Center: <a href="https://www.ariba.com/support">https://www.ariba.com/support</a>
Caso um fornecedor já esteja aprovado por outra empresa na SAP ARIBA, é necessário que seja novamente registado pela SAP?	ARIBA SLP não partilha a informação de registo de fornecedores entre diferentes empresas. Os fornecedores previamente registados na ARIBA SLP e que não estejam registados na Linde PLC devem apresentar separadamente o questionário de registo de fornecedores da Linde
Como é que os fornecedores receberão notificações?	As notificações serão enviadas por e-mail para a pessoa de contacto do fornecedor. A pessoa de contacto principal receberá todas as actualizações de estado e notificações. Os fornecedores podem manter a sua pessoa de contacto principal e outros papéis de utilizadores designados através da rede SAP ARIBA. SAP ARIBA tem tutoriais específicos para manter as funções de utilizador SAP em <a href="http://www.ariba.com">www.ariba.com</a>
Convite enviar para o contacto do fornecedor errado	O fornecedor não deve transmitir o convite, mas sim entrar em contacto com o contacto do GPO mencionado no convite e solicitar o envio de novo convite a outro utilizador.
Quando clico no link de registo, é direccionado para o ecrã de login. Não consigo ver o ecrã de registo	Um utilizador anterior acedeu à ligação (caixas de entrada partilhadas). Se o perfil do fornecedor ainda não foi acedido, a Linde PLC pode reactivar a hiperligação reenviando o convite. O fornecedor deve também desactivar os bloqueadores de pop-ups / anúncios (ver nota Ariba: <a href="https://support.ariba.com/Item/view/179632">https://support.ariba.com/Item/view/179632</a> )
Tentei inscrever-me, mas depois de preencher o formulário recebo o seguinte erro: Tem havido um problema de actualização do fornecedor de Sourcing	Por favor, tente entrar através do site <a href="http://supplier.ariba.com">supplier.ariba.com</a> com o seu utilizador e palavra-passe para aceder ao questionário
O tempo para responder ao questionário terminou, está agora encerrado. Posso prolongar a linha temporal?	O convite inicial expirará 30 dias após a sua recepção. A Linde PLC pode, mediante pedido, alargar o tempo do questionário aos fornecedores que tenham reunido todos os requisitos e estejam prontos a submeter o seu questionário de registo para avaliação. A fim de obter uma extensão de tempo após os 30 dias, envie um e-mail à Linde PLC que enviou o convite original à sua empresa para solicitar uma extensão de tempo.

## 5. Preguntas y respuestas sobre Ariba SLP y el registro de proveedores

Pregunta	Respuesta
¿Por qué deben registrarse los proveedores?	Para convertirse en un nuevo proveedor de Linde o para actualizar los datos, todos los proveedores designados y seleccionados deben registrarse primero y rellenar el cuestionario a través de Ariba SLP - Registro de proveedores
¿Qué significa estar registrado?	Los proveedores deben, para presentar el cuestionario de registro, obtener un nombre de usuario y una contraseña (cuenta de red SAP ARIBA) para acceder al sistema, también puede utilizar su nombre de usuario y la contraseña existentes
Ya tengo un ANID (Ariba Network ID), ¿necesito otro para el registro de proveedores?	Si ya tiene un ANID, no necesita un segundo ID, simplemente inicie sesión con su usuario y contraseña. Si su ANID actual no está conectado con Ariba SLP, necesitará un segundo uno para el Registro de Proveedores/SLP de Ariba
¿Este registro es para la empresa o para una persona?	El registro de proveedores es para la empresa. Sin embargo, durante el registro, el usuario autorizado/designado para rellenar y enviar el cuestionario de registro de proveedores deberá darse de alta en SAP ARIBA para poder acceder a la información de la empresa.
Dónde encontrar información general sobre Ariba Network para proveedores	<u>Los "fundamentos del proveedor" pueden encontrarse en el Centro de Aprendizaje de Ariba: <a href="https://www.ariba.com/support">https://www.ariba.com/support</a></u>
Si un proveedor ya está homologado por otra empresa en SAP ARIBA, ¿tiene que volver a registrarse en SAP?	ARIBA SLP no comparte la información de registro de los proveedores entre diferentes empresas. Los proveedores que se registraron previamente en ARIBA SLP y no están registrados en Linde deben presentar por separado el cuestionario de registro de proveedores de Linde
¿Cómo recibirán las notificaciones los proveedores?	Las notificaciones por correo electrónico se enviarán a la persona de contacto del proveedor. La persona de contacto principal recibirá todas las actualizaciones de estado y notificaciones. Los proveedores pueden mantener su persona de contacto principal y otros roles de usuarios designados a través de la red SAP ARIBA. SAP ARIBA cuenta con tutoriales específicos para el mantenimiento de los roles de los usuarios de SAP en <a href="http://www.ariba.com">www.ariba.com</a>
Invitación enviada al contacto del proveedor equivocado	El proveedor no deberá reenviar la invitación, sino que deberá ponerse en contacto con el contacto de GPO mencionado en la invitación y solicitar el envío de la invitación a otro usuario
Cuando hago clic en el enlace de registro, aterrizo en la pantalla de inicio de sesión. No puedo ver la pantalla de registro	Un usuario anterior ha accedido al enlace (bandejas de entrada compartidas). Si todavía no se ha accedido al perfil del proveedor, Linde puede reactivar el enlace reenviando la invitación.  El proveedor también deberá desactivar los bloqueadores de ventanas emergentes/anuncios (véase la nota de Ariba: <a href="https://support.ariba.com/Item/view/179632">https://support.ariba.com/Item/view/179632</a> )
He intentado inscribirme pero después de completar el formulario me sale el siguiente error: Se ha producido un problema al actualizar el proveedor de compras	Por favor, intente conectarse a través de <a href="http://supplier.ariba.com">supplier.ariba.com</a> con su usuario y contraseña para acceder al cuestionario
El tiempo para responder al cuestionario ha terminado, el estado está cerrado. ¿Puedo ampliar el plazo?	La invitación inicial expirará 30 días después de su recepción. Linde puede, previa solicitud, ampliar el tiempo del cuestionario a los proveedores que hayan reunido todos los requisitos y estén listos para presentar su cuestionario de registro para su evaluación. Para obtener una extensión de tiempo después de los 30 días, por favor envíe un correo electrónico a la persona de Linde que envió la invitación original a su empresa para solicitar una extensión de tiempo
